Thread: [Handheld tazer to the balls](#)

Cammy - November 5, 2019, 5:06 pm

Sorry no video it's a question about the subject. Dm me tho if you want similar one with a fly swatter instead

So basically I placed a bet to taze my balls with a handheld stun gun.

I just wanna make sure I don't permanently toast my nuts and fuck up my ability to produce white slippery gifts or sexual potency

Anyone with experience on the matter who can tell me if it's harmful kindly leave a reply thanks!

I think it would be best if you can't reproduce. Proceed as planned.

If you could mark best response on lounge threads, this would be it.

I'm already pulling my weight in reducing overpopulation by not reproducing so this isn't the concern I don't wanna lose the ability to shoot ropes though you know

I guarantee you Google is one of those things you should use rather than a forum where people will say "yes, do it!" because it's not happening to them. ?

I did but didn't really find an answer to the question, then again I only checked the first few links before deciding to humor lounge a bit

People cheering me on instead of helping out on my favorite forum ain't all bad either. I mean it's the lounge after all. any serious responses would subvert my expectations anyway

Idk, sounds like it would hurt quite a lot.

And this is the story of how OP's family tree fell

You'd be doing the world a favor if your genes don't pass on.

Dredd - November 5, 2019, 5:57 pm

Great way to ensure you'll never reproduce, then again if your IQ is at a level where tazzing your balls in normal maybe reproducing isn't for you.

I honestly do not think this is the greatest idea but hey, to each is his own.
Are you sure you won't permanently toast them and destroy any chance of reproducing?

This reminded me of youtube video but I could not find it anymore :(

That's what I want to know. I mean someone found out cow titty milk is drinkable so sometimes you have to overcome dignity for the greater good
Like others said I don't think much value is lost if become infertile tho, I lost out on the genetic lottery so no point in passing them on anyway

This made me think of "How I Met Your Mother" but instead ending with, "and this kids is how I never made my wife a mother."
