Thread: [Earn \\$1k+ BTC Per Month | Viral Cashouts In Bitcoin \[Earn from your slaves\] \[ALL\]](#)

John_Wick - November 6, 2019, 1:36 am

So,

I am giving away a method which some users here are selling for money and have made around \$1k+ in sales by selling this method LMAO.

Well this is a well known method which is being sold with some twists and turns. This method was huge in underground darkweb forums a while ago (Year back).

Sellers are also infecting members.

So I am giving away tools and method require to monetize from your slaves for free. Why should public methods be sold ?

PS : You can still make money from this if you have some brains and technical knowledge. Creativity is the key for execution. Will be happy to help.

Post here if you need this. DON'T PM ME IF YOU DON'T HAVE ANY QUESTIONS.

Is this the method Xavier's been selling in here? Because I'm still under the impression that some of the files/executables were infected as well..

He started infecting the users later on. He didn't infect the early users while gaining vouch and popularity on his method.

Also, He was sharing public methods nonetheless. I never bought from him but I saw and deduced successfully having a look at screenshot which contained files from his method that he is selling old public method with reformed text.

Also, It's still recommended to run any Binaries and Documents in Virtual Machine for your safety and check netstat -n for connections.

I will now PM all of you who Posted here. Give me love !

Sent PM to ALL with the method. Enjoy ! Keep lovin
