Thread: [eBay Negative Feedback Removal, Defect Removal, Limit Increases](#)

SIM-1966021 - November 7, 2019, 11:54 am

I have recently started offering this service on another forum and the demand has been much higher than expected. I would like to see if anyone here is interested.

I can get any defect or negative feedback removed from your eBay account as well as increase your limits, and even remove some restriction types.

PM me with your discord please. Whats the pricing as well?

MattyWalsh - November 7, 2019, 10:51 pm

Also interested in the price of feedback removal especially?

All PMs sent. The pricing is different for each case and will depend on how bad the situation is, what types of items you were selling, and how many issues there are. I will be happy to assess the situation for you and give you a price with no obligation.

I sent you a PM with no response. Im interested but can you prove this is legit?

I seen these types of services before and they are usually scams.

You don't have to pay a penny until after I am successful.
