I didn't quite get the question, but here's what the data includes:

1. Revenues per quarter
 2. Operating Margin/ Operating Income
 3. Store count/ Comparable Store Sales Growth
 4. Project highlights
- In each continental region

Others:

Company updates/ Corporate project updates

Statement of earnings

1 from 2016

3 from 2017

3 from 2018

3 from 2019
