Thread: [<UB3R> - SELLING AMAZON.COM & AMAZON.UK GIFTCARDS - CRYPTO/ZELLE ONLY! - BULK INSTOCK](#)

Grey Knight365 - November 12, 2019, 10:38 am

I have recently obtained the ability to obtain large amounts of organically E-whored Amazon gift cards in volume ranging from increments of \$50 to \$250.

Do not HF PM me - Discord is 10x faster to reach me on - HF PM responses may be delayed for as long as 24 hours!

I am receiving between \$250-\$1000 USD worth of Amazon every day. I do NOT sell prime.

I receive mainly .COM however I DO receive .UK(roughly 80/20), .UK may take me slightly longer to honor because .COM demand is greater!

I am selling these cards @ 80-85% firm(lower price for > amount) for BTC/ETH/LTC/BCH/OTHER & Zelle(Zelle for smaller purchases).

You can either purchase cards I currently have or cards that I will be receiving in-advance(as demand is very large)!

I sell cards in the following increments; \$50, \$100, \$150,\$200, \$250

I will not sell lower or higher, I also believe you should not be buying cards over \$250 due to the risk associated to them.

Risk should be minimal when purchasing from me but reversals do have a low chance of occurring as they are E-whored.

Terms:

I am not liable for any reversals or reversed cards - Please do not buy from me if your not willing to accept that risk - They are not carded but their not 100% safe either(just like any seller).

You will not reverse any zelle funds sent to me or attempt to commit bank fraud in any form

You will not purchase over \$999 USD per day through me for any reason

You understand these are cards, not prime

You give me 24 hours from the time of your purchase to deliver your card

Extensive evidence will be required if you claim the card does not work

You agree not to contact Amazon in any way that may harm me or yourself

You understand you are buying cards for amazon.com and amazon.co.uk

You understand the price is firm

I've reduced the price to 80-85% - Please contact me on discord if you'd like consistent AGC(\$250-\$1000 per day)!

Amrum - November 13, 2019, 9:18 am

I would buy for 75% for sure, but 80% seems bit rough

80% is the lowest I do, you can contact me on discord if you change your mind!

I need \$150 AGC, I am willing to pay the 80% but not the 24 hr wait. If you have this much on hand, then let me know.

You can contact me on discord if you want to ask what I have in stock, I've got over 6 \$150 AGC codes currently that have been in stock, had you contacted me I would of been able to instantly sell to you.

Please make sure to contact people.

80-85% for UK seems quite high. There are people outside of HF selling physical giftcards with receipts at 85%. Please let me know if you change your mind about the UK rates.

.UK is rarer for me to obtain and I've been sold out non-stop. For those that keep complaining about price, while I understand this may be a "premium" for these cards on this forum, I also understand the cards are quality non-carded cards and I am constantly selling out, every single day. So while I understand price frustrations, I can assure you many find them worthwhile, thank you though!

It doesn't matter if you claim your "organically e-whored", whatever the fuck that means, Amazon gift codes are "quality non-carded cards".

E-whoring is widely considered to be online fraud and carries the inherent risk of a charge-back, especially after they've received the pictures and videos from "Stacy", who you're not, and have already busted a nut all over their keyboard. Someone used a credit card to buy these codes and you have no control over the future (and if you do, let me know the winning lottery numbers for next week) meaning there is a bank somewhere with the right to reverse the transaction.

Your rates are obscene for a product that is not backed by any financial guarantee or proof of purchase, is advertised as obtained through illegitimate means, and is regularly sold for much less than you are asking.

This is my \$0.02 and I don't want 80% for it.

85% is quite high.

Although he does mention that larger amounts would negotiate better prices.

GLWS.

I may message you soon. We'll see.
