Thread: [Steam Games' Hour Booster \[HourBoostr\]](#)

EzCheats - November 12, 2019, 12:23 pm

HourBoostr

Features:

- Supports multiple account
- Auto reconnect
- Boost hours up to 30 games per account
- No disruption from game play (You can login to the account and play, the bot will just stop and reconnect later)

How to use:

- 1) Download the attachment and unzip it
- 2) Run SingleBoostr/HourBoostr
 - SingleBoostr supports only one account. (PC must have Steam installed)
 - HourBoostr supports multiple accounts. (PC does not require Steam)
- 3) Enter in Username and Password and add the app id.
- 4) Start boosting

Tips:

- You can run it off your current PC and use it to boost your games' hours.
- You can also rent a Windows VPS to run this. (24/7)
