Thread: [Adult CPA Partner](#)

Jack Grey - November 12, 2019, 6:07 pm

I'll try and keep this simple;

Currently making \$1.7k-2.5k/ day with adult CPA. 95% of that is profit, in which I am looking to expand and am willing to invest.

My main issue is Traffic, as I currently average 2-3k daily unique clicks. Although I am willing to invest in traffic sources or bots if necessary.

If anyone is able to provide traffic, or has a functional bot which can bring in more than 1k/day Unique Clicks- Feel free to PM me and we can discuss plans.

Payouts would be paid via BITCOIN or WIRE ONLY.

I am looking for a long term partnership, as I plan to make this my full time income for a while- Thanks! ?

Click per action and earning 1,7K per day? Which company do you use? OGAds? I have been getting tons of unique views daily and i've never managed to find a CPA company which would allow me such thing. I use Snap

So you really have 20-30% conversion rate to get such a numbers?

Avarage in industry is 5% or so. ;) just asking. People already pointed out that its quite hard to do that. But i can get traffic if needed only this sounds too good to be true..

I run multiple accounts now spread across multiple sites so now I am making more. Conversions are great due to my main traffic method; haven't had anyone that could match my traffic amount and quality yet.

Everyone that has offered help so far either is inconsistent, doesn't actually have traffic, or are trying to leech off my methods. Which I'm obviously not stupid enough to give away.

Well but it works like that with your traffic. Any other source could be garbage, you wouldnt make much if i would send Pops for example.

How much traffic you need and from what geos ?
