Thread: [COD DOUBLE XP \(MTN DEW CODES\)](#)

Opiatez - November 12, 2019, 6:47 pm

Hi I currently have for sale 10 x double XP for COD. These codes were obtained off legitimate mtn dew products I have purchased and consumed myself, I will take a picture of the full inner label for every sale so you can be assured they are not generated or fraudulent in any way.

I cant be arsed checking the time value of each one so you could get any amount of time upto two hours double XP off one code I believe.

Price : \$1 bitcoin only

T.o.S

No other payment methods as its just not worth even risking a chargeback or whatever against my account for such a little amount.

I won't go first unless you are a trusted Uber (there is enough demand where I feel like I don't wish to even risk getting scanned)

No vouch copies.

I regularly buy more drinks so restock occasionally.

Thank you

Drinks are \$1 + tax usually..

You're selling these for \$1 and expecting us to truly believe you aren't doing what most other sellers do?

GLWS man.

I was doing that to was selling for the same price to and honestly its not illegal to take pictures any ways cause it says no purchase necessary, does kinda suck tho I spent like \$30 bucks on pizza rolls and a lot of the codes were all ready used. Its not really fraud or nothing just taking pictures. I was selling the same price to yeah it costs more but you get a discount a example would be I would buy a small bag of chips for \$1.75 sell the code for \$1 and pretty much get the bag for \$.75

His terms worry me because if its a used code he won't refund or probably provide new one.

No used codes provided and I have the label here at my house and can take you a custom picture with ur name on a piece of paper if requested, so I appreciate your enquiries but no I am not taking photos of other people's codes, these are bottles purchased and in my possession and proof can be provided if requested. Thank you
