Thread: [Ewhore Live Stream?](#)

Captain Pre - November 13, 2019, 12:52 am

Planning to get back into ewhoring, Wasnt a pro. But was doing decent.

Would you guys be interested if I stream my ehvore sessions on discord with their go-live feature? It can maybe be a stream where we all get together to share a few tips here and there. Do some fun challenges or stuff maybe a monthly Nitro giveaway and etc?

If you wanna stream your sessions that good too. this way we can learn from one another ?

EDIT: Would it be a bad idea? As people will copy my pack or will know my buyer names and etc?

I like the idea, but it can be kinda annoying when you have a unsaturated traffic source (as it will be saturated within minutes)

True, What if i do the traffic off cam? Like on a second monitor which the stream can't see ?

That sounds cool but I can find plenty of negatives like the pack saturation, names shown and potential traffic source expose. :/

Names and pack would be the biggest problem tbh. But let's say i have a purchased a premium pack i am pretty sure no one is gonna screenshot each photo of my gallery lol

Names would be the biggest thing. Any ideas to get around it?

Snapchat! I guess it would reveal usernames only when I like add them as friends? I can obv do that off cam.

Seems like this streaming thing will work then, If this gets more interest will get into this

Hey could work and could help a lot but you gotta hide things you don't wanna show. I'll pm you my discord

morningstar13 - November 13, 2019, 3:46 am

Maybe set up a throwaway kik with a free semi-saturated pack to see for yourself and test how that works for you and stream it. Do traffic off screen and if you don't show the whole profile of your customers, it's harder to look them up on kik with just the name instead of the whole handle.

But yes, I'm definitely interested.
