Copied from slick deals...

Walmart: Upcoming Black Friday Video Game Deals List

https://www.walmart.com/store/138..._code=1385

Although the ad itself has already been posted, I thought I would try to identify each game in each category for each video game that is on sale for Black Friday and compile it into a list. If this is not allowed, however, you can delete this post. These deals do not start until the night before Black Friday.

Not all games in this ad are considered "Slickdeals" material, but I will post each game in each category for a thorough look into what exactly Black Friday is offering us. Let me know if I missed any or reported any incorrectly. These deals start the night before Black Friday.

The post that has already been posted just included Nintendo Switch games. This post includes all three major game consoles: Playstation 4, Xbox One, and Nintendo Switch, as well as three Nintendo 3DS games.
