Looking for Android Controller for Mobile Call of Duty

I havent gamed in YEARS and started doing Call of Duty Mobile on my Android and its pretty dope.

Was wondering whats the best affordable game controller for Call of duty mobile (Android)

thanks guys!

There are tons on Ali Express that go on your phone and make it easier to play.

Yea they stopped the controller for now, on COD but you can use the overlay controller that you set the buttons and it clicks it NOT bluetooth controllers

I remember pewdiepie is selling one lol

idk how cheap it is
