Thread: [\[CHEAP\] Botnet / RAT Setup Service - DOC Exploit + FastFlux Bulletproof Hosting](#)

Root-Senpai - November 18, 2019, 2:28 am

[Silver Package](#) [Diamond Package](#) [Gold Package](#)

Frequently Asked Questions

Spoiler [\(Click to View\)](#)

How long will my setup take?

After payment complete generally the setup will be done within 24 hours if you are providing your own domain and hosting. For Diamond packages, if there are delays with server provider I will keep you updated, it will take extra time for the name servers to update.

What payments do you accept?

Only accepting crypto payments at this time!

What will I need before purchasing?

For Silver/Gold you will need a webserver to give me access to FTP and Database. I will help if you need support finding the correct details. For Diamond, you will not need anything before purchase.

After my botnet or RAT is setup, will you help if I have questions in the future?

Yes! I will help, of course. All previous customers can contact me whenever they need for support related to their purchase.

Do you provide crypter, or are your exploits FUD?

No, I do not provide a crypter, and these exploits are not for practical use. They are not FUD and will only be for testing and learning purposes. The DOC Exploit is macro and the RAR exploit only works on versions before 5.7

Is your spreading method auto-pilot?

No, the spreading method is not auto-pilot. It will take a lot of work, but can have some decent results. There are many better methods and this is included as incentive to help new customers get started.

Are there any additional costs after purchasing Diamond?

For Diamond packages you will receive 1 year for the domain, and 1 year for the off-shore bulletproof web hosting. They both need to be renewed at the end of the year, and the Fast Flux will need to be renewed every month. Contact for more details.

Terms of Service

Spoiler [\(Click to View\)](#)

1. No Refunds
2. Will allow at least 24 hours after payment for completion of service
3. For Silver/Gold you will supply the web server details to access database & FTP
4. Acknowledge that I will not make your malware FUD and none of the exploits I provide will bypass anti-virus.

5. Acknowledge that the spreading method is not autopilot and requires time/effort.
6. Acknowledge that I am not responsible for your domain or DNS, if you have any issues, I will not be held responsible.
7. (Diamond Only) Agree that you will be paying for the fastflux service recurring monthly, domain and web hosting annually.
8. I have the right to refuse service from anyone.

Frequently Asked Questions

Spoiler ([Click to View](#))

How long will my setup take?

After payment complete generally the setup will be done within 24 hours if you are providing your own domain and hosting. For Diamond packages, if there are delays with server provider I will keep you updated, it will take extra time for the name servers to update.

What payments do you accept?

Only accepting crypto payments at this time!

What will I need before purchasing?

For Silver/Gold you will need a webserver to give me access to FTP and Database. I will help if you need support finding the correct details. For Diamond, you will not need anything before purchase.

After my botnet or RAT is setup, will you help if I have questions in the future?

Yes! I will help, of course. All previous customers can contact me whenever they need for support related to their purchase.

Do you provide crypter, or are your exploits FUD?

No, I do not provide a crypter, and these exploits are not for practical use. They are not FUD and will only be for testing and learning purposes. The DOC Exploit is macro and the RAR exploit only works on versions before 5.7

Is your spreading method auto-pilot?

No, the spreading method is not auto-pilot. It will take a lot of work, but can have some decent results. There are many better methods and this is included as incentive to help new customers get started.

Are there any additional costs after purchasing Diamond?

For Diamond packages you will receive 1 year for the domain, and 1 year for the off-shore bulletproof web hosting. They both need to be renewed at the end of the year, and the Fast Flux will need to be renewed every month. Contact for more details.

Terms of Service

Spoiler ([Click to View](#))

1. No Refunds
2. Will allow at least 24 hours after payment for completion of service
3. For Silver/Gold you will supply the web server details to access database & FTP
4. Acknowledge that I will not make your malware FUD and none of the exploits I provide will bypass anti-virus.
5. Acknowledge that the spreading method is not autopilot and requires time/effort.
6. Acknowledge that I am not responsible for your domain or DNS, if you have any issues, I will not be held responsible.
7. (Diamond Only) Agree that you will be paying for the fastflux service recurring monthly, domain and web hosting annually.
8. I have the right to refuse service from anyone.

PetWussy - January 17, 2020, 12:23 pm

I didn't purchase a botnet but I had the pleasure of having a conversation with Root.

I told him my ideas and plan to execute and instead of selling me a fake dream, he actually told me the opposite and why it wouldn't work. A lot of others would try and earn your business.

This guy knows his stuff and if your plans with a botnet will align, definitely recommend Root!

Opening a dispute. 7 Days since I have remitted payment without an update.

The spreading method that is part of the Diamond Package is supposed to be delivered upon purchase through automated checkout - however it links to an invalid link. OP confirmed several days ago they would re upload and deliver, never delivered. Followed up just asking for updates or an anticipated time frame as the terms state 24-72 hours. No response, and user continues to bump his thread and show active/online.

Waiting for OP response.

Yet you have no visible, valid contract with OP, your fault again.

I'm Stanley HF's helper bot. This OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.

Thanks,
Stanley

This dickhead scammed me \$250USD - Pretty funny to be honest it's fukkck all to me but probably hes life savings haha! He has 6 disputes opened as well, do not place an order with him he will literally block you after you have sent payment.

Really bizarre how the hf admins still haven't done anything about it. Instead ban me for warning others, seems like they are just as young as this little turd as well.

How long until this POS is banned?? Evidence overwhelming and continues to bump thread and actively scam.

I also suspect that he may have purchased or compromised other HF accounts - every time someone calls him out a new account with a May 2021 join date or an account that has been inactive for a long time comes and inquires about his service - despite the disputes and pages of warnings...
