Thread: [Private Messaging Quota Reached](#)

**Dark** - November 18, 2019, 3:09 pm

I got two e-mails claiming my private message quota was reached but it appears I don't have any messages in my inbox at all. Did it automatically delete my inbox or is my box bugged?

Edit: I can't send messages to myself due to my quota being full, so it appears that my box is bugged. Staff please review this when possible.

Check your sent messages, maybe there's some in there.

Nah, it also says I have a 0% usage on the top hot bar. Maybe it cleared itself.

I just tried sending a message and it didn't go to my sent. So there might be something wrong with my inbox tbh.

Empty your trash. It takes up space.

I guess it's up to a admin to double check.
