Thread: [show extensions for all types of files, through a batch](#)

nicodemo - November 20, 2019, 1:05 pm

Is it possible on Windows to show extensions for all types of files, through a batch script?

realsunjester - November 20, 2019, 2:06 pm

are you saying that the file extensions are hidden in your command prompt?

HFDone - November 21, 2019, 7:35 am

you can use regedit cmd in batch change HideFileExt key to 0 in

HKEY_CURRENT_USER\Software\Microsoft\Windows\CurrentVersion\Explorer\Advanced
SO

reg add HKCU\Software\Microsoft\Windows\CurrentVersion\Explorer\Advanced /v HideFileExt /t
REG_DWORD /d 0 /f
