Thread: [WARZONE RAT/Silent DOC Exploit SCAM ALERTS!](#)

R3XDeveloper - November 22, 2019, 1:59 pm

This guy's scamming everyone by saying silent DOC Exploit. There's a lot of complaints about WARZONE.

A lot of people complain about you. The HF Admins don't do anything about this guy.

Something must be done about this man immediately. HF contract is not made because it sells on the website.

What I'm asking you to do. BE VERY, VERY CAREFUL. Don't trust this guy.

Show some proof please. I thought on buying but i'm not sure if it works as i want it to since exploits are mostly dead.

that product is pure scam. many guys who have told me this.. only buy if he can give you to test it first. be sure to test the exploit yourself

before payign any dime. else you will fall for scam too.
