Thread: [\[Dead Link\] Invalid Forum: Marketplace Section Rules](#)

HFTetramorph - November 23, 2019, 3:33 am

Hello,

The "Important Sectional Forum Rules" button in the root of the marketplace section appears to be linking to the old helpdoc which no longer exists.

Page: [Marketplace](#)

It links to: <https://hackforums.net/misc.php?action=rules&fid=105>

Screenshot:

Omniscient - November 23, 2019, 8:10 am

Actually this seems like a MyBB bug. I have deleted it for now. I need to look over the section rules for the whole site soon anyways. Make sure they are all up-to-date and easily understood.

btw, in case anyone wants to read what I have to go over...

This shows all forum rules:

<https://hackforums.net/forumrules.php>

This is not the forum to post this. Please read the [Help Docs](#). Good day. And thanks Omniscient for keeping the forum up to date.
