2020-02-19

Alright, guys.

I launched this offer about 3 months ago and I got 2 or 3 customers from HF so far. I am selling this coaching on another place too where I have about 7 other students.

It's really hard to trust someone over the internet and especially on HF, lately so many scams appearing and people must be extremely careful to not fall for scams.

The original price for my coaching is \$1000 and I completely understand that it's quite a big amount in this forum, so I decided to offer a highly reduced price for the first 5 people, so I could get more vouches so people could trust me more.

After (If) I sell all 5 copies, the price will be as before.

The price for the first 5 people is ONLY \$500

\$500 DISCOUNT For First 3 Students!

26/11/2019

=====

Have you ever imagined having a business that will outlive you? A proven and workable business that is guaranteed to fill your bank account with a passive income of at least \$1,000 monthly?

What if the business requires less an hour per day? What if all that is required of you in this business is barely an hour daily to only take and complete simple orders?

Interestingly, the scalability of this business could rise to \$3000 monthly.

I am entirely confident that everyone would like to have such income stream, but doesn't it sound too good to be true?

NOT AT ALL!

I own and run the same business, and trust me, and anybody could do the same. The MAJOR obstacle most people face is that they barely know where to start. The truth is that they only need access to the right information and also a close connection with someone who knows the intricacies of the whole business.

Well, don't panic yet, you are in the right place, make sure you read to the end....

If you genuinely need to be financially free and you want to learn from the feet of someone who has recorded massive success in this business. Then stay put and read on....

To an average income earner, \$1000 might not do much, but on the other hand, some low-income earners would excitedly love to have an extra \$1000 added to their account monthly.

With the knowledge you gain from running this business and from earnings, more doors are open for you to start bigger and higher-paying opportunities.

The knowledge you would grab from operating this business, including the earnings, would undoubtedly create more open doors to more significant and higher-paying opportunities.

Therefore, I introduce to you 'Arbitraging.'
You may be wondering...what on earth Arbitraging is?

Well, as simple as ABC, you can describe arbitraging as buying of goods, services or other items for a lower price and sell at a higher price in different places.

This business model is quite popular, and trust me, and it will work forever as long as you can buy an apple for \$1 and sell the same apple for \$2 some other place. Please, be informed that we aren't talking flipping fruits here, it's merely an illustration.

What we would work with is sourcing for very cheap and yet high-quality SEO services and resell the same service for higher prices, this way, you will have a truckload of cash spilling into your wallet.

Interesting, isn't it?

Issues with arbitraging.

As simple and straightforward as it may seem, many people still fail with arbitraging, and I will be pointing out five genuine reasons why most people find it difficult scaling with this business;

Well, the first step to solving a problem is knowing it. With my coaching course, all those failures I pointed out above will be a piece of the pie.

I will

Take you by the hand dutifully and show the best places to find and buy a very cheap and high-quality service.

Reveal where you'll sell these cheap services for maximum profits as high as 50% ROI

Assist you in building a complete sales thread, which will include quality graphics, contact forms, pricing tables, and the required skills to captivate a customer that they'll beg for your services over and over again.

The last and best part is helping you scale your new arbitrage service that it will become passive. Guaranteed, you will be earning \$1,000 or more passive income monthly.

The truth is, earning online is not so difficult, but the issue has the right knowledge and information from experts who have successfully created such business models. I am very willing to assist you in every possible way so you can find your feet, and we can collectively build your income stream.

I know you'd be wondering how the coaching system will be like and what you'd be expecting?

Alright, I have prepared a plan for your coaching, and just let me know if it's something you would be interested in starting.

Well, lessen your doubts because I have a whole comprehensive plan of how to coach you. The only thing that is need from you is your INTEREST.

First of all,

You will purchase the coaching package, and then we can converse via Skype. During this conversation, I'll confirm the ideal time that suits you because of the difference in time zones, know your schedule if it's daily or weekly, we will carefully explore your expectations in a way you will find convenient.

After I have known your expectations, availability, and scheduling, we can now agree on how best to work with each other. I will start by giving you simple tasks to test if you are grasping.

I will then reveal where you can buy the services, the best services to buy, I will give all the important contacts and also the skill in filtering the best services that will sell.

I will design and build a quality website for your service so you can get sales from both forums and organic visitors from Google search.

I will take out time and teach you how to communicate effectively with customers that will be on

your neck immediately we launch your sales thread. You will also learn how to set your pricing like a professional.

The moment your arbitrage business model starts gaining traction and making your profit, and I will show you more avenues to expand and make more money.

'You might be asking, 'How long does it take to start making \$1000 per month?

Every business is like a baby that grows gradually, so my candid advice will be for you not to focus on reaching \$1,000 monthly at all cost especially at the beginning stage. You should exert more effort on the learning process and follow it diligently so as to avoid grave mistakes many people have made before.

Another factor that will determine the rate of your success in this business is how fast and eager you are to really work. For instance, we might agree to work for only 1 hour per day or decide to work 5 hours daily. But whichever way it goes, in the space of 2-3 months you should be earning such amount per month.

For the sake of impact and convenience, I will be limiting the number of participants in this unique business opportunity to only 10 persons at the moment. So, I will indulge you to take action RIGHT NOW and be among these ten students.

The Price For The Coaching
ONLY \$1497

I really would like to reduce the price so more people could afford to grab this opportunity, but sorry guys, I can't do it, as I am giving a lot of value and it's the lowest price which I can ask.

If you don't see value in my coaching OR if you haven't made any money in the first month, I will refund 100% of your money.

Everybody knows that screenshots can be faked. Actually anything can be faked, so this is why I haven't posted any payment proofs. BUT, if you are really serious and thinking to buy, you can always contact me and I will show my other account where I am selling services at another forum. No saturation is possible. Too many services which you can offer and too many buyers who looking to buy your service. Another thing is that it's almost impossible to start such business without mentoring, as there are so many issues which would kill anybody who would try to start this business alone.

You you would need extra investments, it's about \$150-\$200.

Arbitrage/reselling business is well known and has huge potential.

I am coaching people to reach \$1k per month mark and give the info how to scale the business.

So my duty is to coach person until he reaches \$1k/Month, if he want to make \$15k per month I will give the steps, but it will be very hard, but possible.

(Dec 3, 2019 02:59 PM)evelution Wrote: [\[CITE\]](#) What separates your methods/mentoring from other arbitrage methods/trainings out there?

First of all, I think I am the only one who offers such coaching/mentoring about making money in arbitraging.

Secondly, I am not promising some nonsense profits like \$500 daily.

I am offering mentoring and guarantee a realistic income.

You would be coached and helped to build a real business which would make you money many years, it's not some get rich quick scheme which stops working in a few days or in some weeks.

With all respect for you, I really think it's stupid to ask or to believe in such proofs.

If I would want to scam, I would hire someone to fake the video or hire someone who could make his paypal account video.

Nobody should believe in any screenshot or video.

I am not forcing or pushing anyone to join and I am not selling a dream here.

If someone is interested, please contact and I will answer all the questions.

Also, one guy joined and I will try to ask to write a few words about his experience so far.

I understand the point you're trying to make, however there are members actually asking you for POI's, so couldn't you just post one for the sake of just showing your income? I get that people can fake them very easily, however you surely wouldn't fake yours, would you? So there's no reason why you couldn't post yours?

I would love to see a proof of income video, with a refresh and mobile timestamps. (as in take the video and post it directly after so the times match up.

I really hate to show any screenshot of income or any other such type of stuff, because it actually won't prove anything.

Many people were asking to show proof and here it is, but you need to know and understand that you must take action and work hard to start making money. Each person is different, one can make millions and another twenty bucks from the same method. I am here to coach you and I can guarantee such amount per month, but only if you put some work too!

You are absolutely right, Mr Monopoly.

I am not charging \$1500 monthly, it's just a one-time fee.

You would make at least \$12k in a year and you paying just \$1500 (\$1000 with discount).

This is NOT some short term method which would make you thousands of dollars overnight and later the method just stop working.

This is the real business, which will make you money many years in the future, because it can't get saturated and always will work. Another thing is that you could scale this business to \$2k or \$3k per month if you keep working. If you dedicate your time and full effort to your business(your future), you will be successful no matter what.

What I guarantee is \$1000 per month, but it doesn't mean you couldn't scale your business and make \$2k or \$5k per month, the method and steps are the same as to make \$1k per month.

I know that you can find so many offers offering \$500 daily for \$100, but as I said, I am offering real business which will work forever, so you don't risk your money buying some method which can work today but won't work tomorrow.

The choice is yours, not pushing to join, just giving small advice: DO NOT chase 'Get Rich Quick Schemes'! , better start a real business, which will lead you success not only in your current business but also in future ventures.

Had a few questions before placing an order, as I didn't have much experience with arbitraging services.

So, I Pmed him all my questions, and I was pleasantly surprised.

By communicating with him on discord, not only did I receive answers and suggestions to all my questions; but he went further and pinpointed me with everything I need to make my first \$\$\$\$. And yes, sometimes it takes longer for the coach to respond, but it's natural.

He taught me everything from scratch and by giving me all the necessary stuff like a graphics pack (a sales page) and the specific SEO services, which I could use to start selling right away.

Now, it's been almost two months, and I'm running four services that are making me around \$200 profit/week.

I appreciate your mentoring style. Pretty legit and highly vouched for the coach.

Okay.

It's SEO(search engine optimization) services. I can't tell what exact services you would sell, but it's like:

Seo package: 1000 blog posts backlinks and 50 PBN(private blog network) backlinks and 1000 social signals for ONLY \$30

OR

SEO Pack - Backlinks, WEB 2.0s, Social Signals / Bookmarks from Authority Networks for ONLY \$45

These are just examples.

If you knew how to register an account here on HF and know how to send private messages if you know how to write posts and participate in threads you will be fine ;)

You would need to accept orders and pass them to the outsourcers, also communicate with the potential customers and clients and answer questions. Nothing complex, trust me.

I'm Stanley HF's helper bot. This OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.

Thanks,
Stanley

OP sold me this package, I bought it but I didn't make one single dollar; everything looks OK in theory but in practice, when the time for my coach to step in, he just ignores my messages. Most likely the other user who said he bought it too is the same person with the OP.

I posted here just for other users can see this thread and don't fall to his scam in the future; he might open a new account and try to fool others (I'm not a genius, but I'm pretty sure you aren't too bright, aren't you?).

I know what a closed account is, stay calm. Don't bother to reply to this.

you. He don't reply to my messages anymore. He made a nice fake reviews on another site, it looked very promising but eventually it was a scam, unfortunately.

It looks like this scammer made several victims.... Unfortunately, most likely he'll change his name / contact info and he'll start all over again.
