What would a custom .edu email look like for example? I've never had an .edu email before but if I can take advantage of the free 6 months of Amazon prime, that would be great. Would I just be able to change my email on my current Amazon account and I would get the deal or would I have to make a new Amazon account?

I'll probably purchase one from you Friday, as this is the cheapest I've seen them.

hello there, thank you for passing by.

A custom edu email will include your chosen username, something like "Legitimately @ edu"

sadly the offer for the Amazon Prime is elligible for edu emails only.

Feel free to dropby anytime and whenever you feel ready, open a contract!

I understand that the Amazon Prime offer is for .edu emails only. I actually don't have an email registered on my Amazon account, so I'm asking if I added the EDU email that I purchase from you, would the offer be available to myself or would I need to make a new account?

hello again and thank you gain for you interest!

once you use the amazon prime you dont need to create another one as you will be the one to register on Amazon, i will only provide you with the edu email

i hope that i made it clear for you
