You are gay if you imply you aren't

Would you agree with this ? I have a few friends who constantly ramble how they're not gay or anything, but they seem very gay to me. Have you observed similar behavior? I also heard a very interesting story about two guys who were arguing about who's the most gay, and it ended up with them making out to prove that they're not gay. And that makes sense if you ask me, so now i ask you: does that make sense?

DNA - November 25, 2019, 2:09 pm

This makes zero sense. By this logic, I'm chinese because I said I wasn't chinese?

Blogger - November 25, 2019, 2:11 pm

lol I see this all the time. A lot of gay people will make it a point to tell everyone they're straight. Probably fear they won't be accepted.

The behavior I explain in the OP isn't rational, you can't use logical reasoning with it, so NO.

These are observations I have made.

Some people are scared... Who cares it's almost 2020 being gay is whatever. I have no judgment.

Ok let me rephrase, am I chinese because I say I am not but have slightly wider and closed eyes?

There's a reason why logic is rational.

Unless you can prove beyond reasonable doubt that the person is gay, you must perceive them as both gay and straight until you know for certain.

duck - November 25, 2019, 3:12 pm

There has been some study that says homophobes are often gay/bisexual themselves but I wouldn't consider myself 100% straight either and I think I'm not homophobe, i'm okay with everyone. :D

OGMudbo - November 25, 2019, 3:13 pm

gay boys wear makeup which in the end pulls hot bitches

Crimin4L - November 25, 2019, 3:18 pm

Imfao so wait, they made out to prove their not gay?

Ravioli - November 25, 2019, 3:19 pm

straight guys act gayer than gay guys

that's how you can tell

Seagulls - November 25, 2019, 3:40 pm

I know what you mean OP. Some guys who seem a bit gay are always like so anti-gay and always seem to bring up the subject and try to affirm that their straight all the time.

Whereas somebody you know is 100% straight will have a joke and maybe slap their mates ass as a laugh.

Wow... Making out to prove they aren't gay. LMAO.

That sh t is gay as f ck. No homo.

Crypt - November 25, 2019, 4:34 pm

If you can make out with a guy then you're gay. Nothing wrong with that but I don't think a real straight person could hardcore make out with a dude.

Lindros - November 25, 2019, 5:14 pm

I'm definitely not gay, I don't know how saying that would make me gay somehow.

Popstar - November 25, 2019, 5:40 pm

You're pretty gay for watching and also it seems like its been on your mind for a minute now huh

Would it change anything if you found out they are / not gay?

spradebassen - November 26, 2019, 12:09 pm

proving something you're not often indicates that the person has some kind of insecurity/urge to change other peoples mind.

therefor no, they're not necessarily homosexual though there is a chance they have low self-esteem

hayesh - November 26, 2019, 6:03 pm

Well In that case im not gay.

Louis C.K. - November 26, 2019, 6:38 pm

let say we are having a threesome and my cock slips out the girl's pussy, I ask you to put my cock back into the girl's puss, would you consider that as gay? ?

Ravioli - November 26, 2019, 7:42 pm

Bossk I think this is something you think about on the daily. ?

HorseShit - March 23, 2025, 10:49 am

There's a term: "The Lady Doth Protest Too Much" and it's exact-o-fuckin-ly relevant to this post. Any dude over driving age that feels the need to assert he's "not gay" is 1.) Thinking about it way too much right off the top. 2.) Feels like his secret gayness is too obvious and is trying to make sure nobody sees his purse. 3.) They will absolutely be the first one to accidentally suck your dick after 2 beers just to "prove we're not gay" or "yknow, practicing for chicks, dude". Imao. closeted dudes do some fucking crazy stuff. until they grow up and come out, i steer clear of those types cuz they can get really stupid and unpredictable if they think their secret (Imao everyone already knows dummy) is possibly going to come out, including violence.

(Nov 25, 2019 05:34 PM)Crypt Wrote: [\[CITE\]](#) If you can make out with a guy then you're gay. Nothing wrong with that but I don't think a real straight person could hardcore make out with a dude.

Nah disagree here. I mean, for OPs description they were 100% gay or at least one of them was, the other potentially a SA victim Imao. But, being able to kiss another dude - while gross - is totally something thats easy to do if you're an actor or good at improv, comedy, shit like that. If you're straight and "have to kiss a dude" like for a scene acting, its just work. Pretty sure actors dont turn gay but maybe I'm wrong?

Anyways to summarize, I need more fucking whacked out straight dude friends to do hot crap like these "kissing and drinking cum to make sure we're not gay" stuff so i can sell it on onlyfans Imao.

I say some diabolical shit

Gotta keep people guessing

Homosexuality is my opsec tool

PRORATTER - March 23, 2025, 3:56 pm

These things can be comical.

I remember a political figure in the US a few years ago who stood before a crowd and assured to everyone:

"I am not gay, and I have never been gay!"

Things like that makes people smile, raise their eyebrows, and say "yeah, right!".

:D

theblackernator - March 23, 2025, 3:57 pm

this logic is abysmal. I kiss guys all the time and I'm still not gay

Amelia Rose - March 24, 2025, 9:41 am

what if someone asks "are you gay?" and you say "no"? By your logic is that enough to make you gay? ?
