Hello,

Looking to sell my €400 Physical Steam Wallet Gift Cards(8 Gift Cards, €50 each) for BTC(looking for best rates).

Not dealing with anyone with open disputes, negative b-rating, etc.

Minimum 80%.

You can buy physical Steam GC's on Paxful for 65% and less from sellers with hundreds and even thousands of positive reviews, so paying you (0 b-ratings) 80% doesn't make any sense at all.
Steam GC's usually get sold for +/- 50% here, Pyro is being really reasonable.
