Sign up here and download the client, it's a new app for your phone and runs in the background.

The app can tell when you are not using your phone and gets to work at that point until you return.

I already make around \$5 a day from it and you can too, plus the more devices you can use this on (always runs on windows) the more you get.

Minimum withdrawal \$20 which you can make in 4-5 days on autopilot.

Use my link to get an instant \$1 in your account

Enjoy!
