Thread: [Hack Game Newb- are missions worth?](#)

Unexplained - November 28, 2019, 7:44 am

I've been playing the hack game again. Only lvl 8 right now.

Are missions worth dumping money for? I got offered hacking a police HQ.

No. They aren't. Save your money.

Thank you

Rsynced - November 28, 2019, 3:26 pm

Thanks for the info, I will remember this... Just started playing a few days ago.

Natas - November 28, 2019, 4:11 pm

Bro I was at 8% then I gave up on the missions and started just doing small hack jobs slowly but surely working my way up.

(Nov 28, 2019 05:07 PM)Focus Broken Wrote: [\[CITE\]](#) Save it for what exactly? There's nothing else to spend on besides download speed/storage space upgrades.

I spend all my money on \$400 large batterys

Im pretty much broke all the time and try to go through like 3 batterys a day trying to get level 50

Ravioli - November 28, 2019, 5:37 pm

I didn't know either, thanks for making the thread.

Charging speed is what I spend it on. Also who knows what the next update will be.

Ravioli - November 28, 2019, 9:16 pm

why can't i ever win in this game

Unexplained - November 29, 2019, 2:44 am

(Nov 28, 2019 10:26 PM)Focus Broken Wrote: [\[CITE\]](#) Charge speed doesn't work yet. I bought several upgrades for that before I realized.

What? Are you serious.. How the f ck does it not work

Yeah I think it works but its like really really low % upgrade some one told me they had to upgrade it like 300 times before it even did anything.

Rsynced - November 29, 2019, 9:04 pm

Why does Kali Linux cost so much since it's open source free software. Irony.

Unexplained - November 30, 2019, 9:29 am

Thats straight bullshit. I've upgraded it a ton already. So battery capacity would have to be more cost effective if what you're saying is true.

Why the f ck would they design it like that?

(Nov 29, 2019 10:04 PM)Rsynced Wrote: [\[CITE\]](#) Why does Kali Linux cost so much since it's open source free software. Irony.

Haha the irony. That's funny.

So basically overall the missions are a waste of time?

I've attempted a few of them recently.

The overall cost would be something like \$300 and the potential profit is something like \$375. But there's always a chance the mission fails and you lose out.

Doesn't appear to be worth it.

Ok, I hope they keep working on the game, it has potential, but now all I do is select a random small hack job and wait for the timer. Get's very repetitive.

Complete waste of time . Use your money for the \$400 large recharge on the battery and do small jobs only .

At present it's a complete waste of time buying anything even Opsec items

All i can say is just grind at the small jobs from 44% up to 9%

If you need any more help feel free to PM me ?

[Sick](#)

Im not sure man I guess maybe cause its still in development my battery capacity is 115 kWh what is yours ?

I only upgraded mine like 3 times let me know im interested.

It's only 110 kwh.

I put most money into recharge.

yeah I dont understand it I think I only upgraded mine like 3 times im not sure how much it upgrades each time but I it didn't really do nothing I usually get like 3 \$400 large battery charges a day I been putting in work when im at work ill kill my battery while working lmao its kinda boaring tho I hope it gets some upgrades

Blogger - November 30, 2019, 2:08 pm

I don't do very many missions but I do them when I'm close to the next level. This gives me a little push.

Sir - November 30, 2019, 5:04 pm

Honestly it's best to just Spam the 9% Hack NASA tasks.
