\$25 is very cheap for a claimed high ROI.

At least ask for \$50!

If your giving vouches, give me one. Not the biggest member but I have more experience in fields both dark and light than average member. Thus I seen plenty of methods.

Same question. If this is gambling then is this another script, sports betting or what is it? More information please!

Your title says is \$100-\$500 per day.

Your FAQ says is up to \$100 per day.

Please decide upon a guarantee and go with it.

It's not about referral seeking.

You can need 1h or 1day to make \$100, it's up to you

1 hour for \$100

=

\$2,400 per day

=

\$16,800 per week

=

\$67,200 per month

And you sell it here for \$25, even wasting your time on mentoring, supporting them and providing updates.

Lol sure makes complete sense... very legit.

It does make sense though, what doesn't make sense is you selling a lucrative method for pennies on the potential dollar you could be earning.

Also if you just "want to help members out" why are you charging them for it in the first place

Hopefully you will actually give people more details. I can see you are getting triggered while people asking tricky questions about your method. As there are very few details about your method . Also often hf members promotes scam (atleast those never works exactly the same was it says). I can see about myself i spent a lot (A LOT of money) for a working method so i can make some decent \$\$\$\$. But always come up something...doesn't work for me. So i will tell you mate, Please tell me us more details. So i can understand it is unique and it will work. Hopefully some one (a legit person) will try your method and let us know exactly what it is. I am not trashing your sales. actually letting you know the feeling of the most users. good luck with your sales mate. Thank you

Hi,

Interested. Can I do this from Cape Verde (Africa)?

Your bankroll was \$20 and you made \$250 from that bankroll?

Can this get saturated?

How long have you been doing this?

Any other start up fees?

Is it easily scalable?

Thanks.
