Basically, I started off selling accounts, some methods and working at McDonald's part-time, making like \$2000 a month? Believe me or not it took a lot of work and I was pretty tired of this, I knew that working for minimum wage wasn't my thing, so what did I do? I bought a money method here, two actually. And they made me no money at all, NONE! When I ask for a refund the owner would ignore me, which broke my heart because I could spend the money on weed instead, so what did I do once again? I tried doing something by myself, and I ended up getting a pretty good idea(s), which are written down in the document, that made me A LOT of money doing practically nothing, just checking a website and doing something once a day, it just started off I tried it, woke up and see that I got \$300, I went fucking crazy lol, next day I had around \$1000 and bought a canada goose vest, then gave my friend a knife in CSGO (shout to lajbox you little broke boy lol).

Basically this changed my life, so why not help change yours?

The book is easy to understand, has everything you need and if you need help (even if you got the BASIC package), I will be more than happy to help you, the BASIC package doesn't really include mentorship but I'll just point you in the right direction and maybe you can ask me for feedback on what you are trying to do.

The mentorship package will make me handhold you till you start making money, if it won't work for you or you just won't like it, I'll send you the money back.
