Thread: [Which anime has the best anime music?](#)

kpown - November 29, 2019, 10:14 pm

So far the best music ive seen is Naruto/Naruto Shippuden. Very emotional, powerful, and perfectly matches the situations that they play in.

I havent seen attack on titan yet but ive listened to the music and I was blown away. Amazing and emotional. This will prob be my next major anime. It could potentially have the best music if it fits the situations and characters right.

7 deadly sins I havent watched but escanor is so cool and his theme is so cool and matches perfectly. Ive seen clips on youtube lol

Ive heard good things about FMA brotherhood too

What suggestions do you have for best theme?

Some people say samurai champloo... i loved the anime but the music wasnt my style
Not a fan of the cowboy bebop theme that everyone wont shut up about lol. Its unique but not my thing

Now i havent watched Jojos bizarre adventure but golden wind theme giornos theme is SO FUCKING LIT

Suggestions please! What makes an anime have good music is not only great songs, but the timings, when the songs play, the characters that are associated with the songs etc. For an example of amazing song timing I would call one punch man. When saitama one punches shit his theme plays and its always EPIC. OPM has some great songs. Esp S2.

Madoka and Spice and Wolf also have some of my favorites OSTs. Of course, know can I forget, K-On! by far has the best music of of any anime. a lot of it is only shows up briefly in the anime but the the all of the full songs and character songs are great.

Now, it metal is your cup of tea, Detroit Metal City has some sick as hell songs

Also Symphogear, it's about battling while singing.

The Satoshi Kon films with Susumu Hirasawa OSTs are also among the best of the best.
