Thread: [New gaming mouse](#)

Zero - November 30, 2019, 11:08 pm

Can anyone recommend me a good (not very expensive) gaming mouse?

I was looking at this one:

Spoiler ([Click to View](#))

https://www.amazon.com/CORSAIR-Wired-Ambidextrous-Multi-Grip-Gaming/dp/B07QZHSTLC/ref=sr_1_3?crid=QF73P8R8L49W&keywords=m55%2Brgb%2Bpro%2Bambidextrous%2Bmulti-grip%2Bgaming%2Bmouse&qid=1575183684&smid=ATVPDKIKX0DER&srefix=M55%2BRGB%2BPRO%2BAmbidextrous%2BMulti-Grip%2BGaming%2BMouse%2Caps%2C266&sr=8-3&th=1

This is also the shape and size I like so please something similar.

If you know about a similar model but wireless with a wire that you can connect it or charge it with.

Thanks!

You can't really go wrong with Corsair products from my experience.

A few I would recommend are the logitech G203, G305(same shape as the g203 but dif sensor and wireless also my personal fav, with a lithium AA battery it lasts around a month) and the Endgame Gear XM1(good mouse with top sensor if you play fps games)

I'll check them out.

Thanks!
