Thread: [how can i create a crypter for rat njrat ???](#)

Milad325 - December 1, 2019, 1:48 pm

Hi all friends how can i create a crypter for rat njrat with Visual Basic .NET ?

Please guide me ?

AMGTech - December 2, 2019, 5:14 pm

use search feature , search for crypter source in the section ,, easy

Spy™ - December 23, 2019, 4:24 pm

You should first understand how crypters work and how they are implemented I suggest you to read the crypter bible in the cryptography section and later decide to learn a programming language if you doesn't know yet or starting to code something special yours right away.
