Hex's No Investment & Auto-Pilot Crypto Income Guide

A guide for broke beginners

So, what is it?

Hex's No Investment & Auto-Pilot Crypto Guide for Beginners is a guide for a method that I personally used when I was financially in my worst times. It requires no investment, aside from about 30 minutes per day to maintain the method. It's a completely legal method that requires nearly no effort. Typical payout is crypto (BTC/LTC/ETH), with options for PayPal and various other payouts. This guide can truly be autopilot with just a few minutes of maintenance per day.

FAQ

Q: Is this truly whitehat, 100% legal?A: Yes, it's 100% legal. You could use your real information, if you really wanted. Q: Will you offer a refund if it doesn't work for me?A: No, I know the method works. It requires no effort. I've included a link to my discord channel, and you're always welcome to PM me. I'll happily take time out of my day to help you, and provide guidance and tips. I have yet to see someone who doesn't make money from this. Q: How much can I expect to make from this?A: It depends. I made \$10 my first month, but my peak week was \$150. It all depends on your how much effort and creativity you put forward. I wouldn't be surprised if someone could make over \$1,000 in a month with this. Q: Is this a private guide?A: This is my twist of various other methods I've learned over the years. This guide is private, but anyone can do this method with \$0 to invest. It's literally free monetization.

I'm Stanley HF's helper bot. This OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.

Thanks,
Stanley

Not going to lie, this method is smart, although if you have a big brain you might already know this. I set this up overnight and haven't started making a profit yet, I will update when i make the first of my profit.

That's entirely up to you. I've done this with as little as about 30 minutes a day. I recommend a few hours for initial setup, you'll likely see some better results.
