Hope you all have been well! Got something really special to offer to the community for a limited time! Seeing that my last thread was a great success I might as well give you all an opportunity to checkout my new method. I will be finally be listing my private method to help a few lucky members. After endless tweaking and modifications, I've now been using this method flawlessly for over half a year now and I've been earning consistently without any issues. My daily profit sits at around \$200-300/daily with only 10-15 minutes of work. As a way of giving back to the community that's helped me achieve online financial success, I will be selling a few copies of my method. You might be wondering if this method really is private and unknown. Well I can 100% assure you that I stumbled across the method myself and that I still haven't found any info about it online. If you're interested in taking advantage of this powerful opportunity keep reading.

Setting the method up is extremely quick and simple, it's basically just a few steps without any creative/guessing work involved. A \$50 investment is needed at the start but will no longer be needed after setup. After the quick 30 minute setup, you can expect to start seeing earnings immediately without any downtime. There are absolutely no skills or requirements needed besides the initial investment. Earnings generally span from \$300-400/day and are consistent. About 10 minutes of work per day is needed to acquire the earnings and payouts are daily in BTC but you can also take PayPal. The method works worldwide flawlessly and does not have any age restrictions. Please keep in mind that this method is greyhat but does not impose any sort of risk.

What's NOT Included: Trading Crypto, CPA/PPC, SEO, Surveys, Affiliate, Exchanging, EWhoring, Ebay, Buying/Selling, Website Creation, Difficult/Confusing Work

What's Included: Easy-to-execute Private Method, Simple Setup, SCALABLE, Daily Earnings, BTC Payout, Refund Guarantee

Copies Remaining: 5

Pricing: \$240 \$120 (BTC/LTC/ETH & Amazon Gift Card)

(2/3 Discounted Copies Left)

Earnings proof (I've scaled the method a lot):

Decided not to sell as many copies. Kind of got too ahead of myself haha.

(Dec 4, 2019 08:55 PM)jefnun Wrote: [\[CITE\]](#) hello may i know is this gambling??

Has nothing to do with gambling or anything that involves risk.

Sorry mate the pic was from a while back when I was thinking of selling the method but chose not to. I'm actually really deep in shopify and don't f*ck with greyhat stuff anymore which is why I'm selling now. Anyways here is some additional proof that is more recent:

anything99 - December 4, 2019, 9:45 pm

Is this paxful/GC related?

ShadyAF - December 4, 2019, 11:06 pm

Read this guys previous sales threads and you guys can make your own mind up about this..

Remember people if it's too good to be true, it's usually not true.

Zero - December 5, 2019, 12:28 am

Looks interesting.

Did you sell it to anyone that can vouch or give us review?

Will need something like that before I buy something for this price.

Thanks

naselion - December 5, 2019, 3:59 am

Would you be kind enough to PM because i cant?

I am very interested.

Does not include trading/exchanging crypto that would basically be public info.

i bought it. i will write something when i recieve it.

Vitaly - December 5, 2019, 10:11 am

I swear you used that exact screenshot on a different sales thread that you had, that you happened to edit and remove the same time you made this thread lol

luffy - December 5, 2019, 10:32 am

This dude posts a different money making thread like every other week, all of them with various people discussing all other other crappy "methods" he sells. I'd be careful buying any methods from him.

Vitaly - December 5, 2019, 10:38 am

This kid is an idiot. I posted my comment above, and he immediately PMed me saying the following

<https://gyazo.com/85b911bb2f36d1e93a6e782dcc184282>

He then instantly goes back to the other thread he posted ages ago and edits it AGAIN.

I pulled the cached version of that thread and he literally used the EXACT same proof in that thread ages ago.

NomadicPresence - December 5, 2019, 10:56 am

If you're too lazy to make a proper thread for a proper "method" then that says everything people need to know about you as a seller.

This method could very well be legit but why keep posting threads and deleting them? That's so fishy! Just lock them. Why delete them? Don't buy this method.

Fugg - December 5, 2019, 11:18 am

With all these money making methods you know it would seem you wouldn't need to sell any ebooks. Gah damn, you've posted 15 in the past week. You should own a private island by now.

Bro.. that's not true. why are you lying? This thread here: <https://hackforums.net/showthread.php?tid=6021342> is no longer up had crypto earnings proof pics.. how would I know? a) because I remember it and b) there is a comment asking about what wallet you use based on the crypto payment proofs you showed.

So I'll ask again. how do we know your crypto payment proof.. from months and months ago is from this method? not trying to sales trash, I think it's a legit question..

Answer this question or provide RECENT payment proof. Stop acting so suspect, dude. Damn.

Thanks for the neutral by the way. I was interested in this method but I have my concerns and was hoping you would address them rather than be immature. Oh well. Good luck selling this...

blitz - December 5, 2019, 4:06 pm

Guys chill out lol it's not that serious. As mentioned this method has never been seen before and my first customer can even confirm that. In fact he just setup and earnings are about to pour in for him so that's another plus. I'll go ahead and add on some additional earnings proof for you all to see when I get home.

atari2001 - December 6, 2019, 11:44 am

I bought it and i can say: His support is slow af! You ask him 3 questions and he answer you after 1-2hours 1 of it. Thats going the half day like this.

The method can work, but i will not test it because its to risky to loose your money! He says: you will not loose your money, but yeah its easy to say if its not your money!

This is not worth \$120/240!

\$200-\$300 profits per day from 10min-15min work, Jesus Jesus....

atari2001 - *December 6, 2019, 11:52 am*

The Method can work, but you need to risk all your money every time!
