I have been looking for sites to upload my file to get direct link
Please help suggest a site where i can upload that do no scan/distribute/delete files

You can as well help suggest any vps which do not have restrictions of file types. I really do not know much about vps but i am willing to learn as i need this so badly

I dont know if it still works I made it a while back but you could give it a try.

Code (xenia) `sunjester@localhost:~/Downloads/anon$ ./anon.sh -h`

sunjester's anonfile direct downloader

<https://realsunjester.wordpress.com/>

<http://underworld.club>

If you supply a link with no arguments, the direct link will be returned

`./anon.sh https://anonfile.com/jd05Mbseb7/anon_zip`

Single Link

`./anon.sh -s https://anonfile.com/jd05Mbseb7/anon_zip`

Download from List

`./anon.sh -d list.txt`

Get Links from List

`./anon.sh -l list.txt`
