Seagulls - December 8, 2019, 7:29 am

Damn I'm sure I only know one of his song but still sad ;/

JoaThePlug - December 8, 2019, 7:30 am

He was a good person, smoked while listening to his unreleased songs that helped me when I am freaked out

Popstar - December 8, 2019, 8:00 am

Honestly this sucks ass. I am a huge fan of juice and him and trippie redd are the only new age rap artists I really listen to..

Now there's gonna be a shit ton of controversy and people being dicks making memes about him dying and shit. Then they are gonna release some shitty post humous record to milk his death

N - December 8, 2019, 8:01 am

Chevy - December 8, 2019, 8:27 am

My friends and I are diehard Juice WRLD fans and this has hit all of us where it hurts the most. He's gone but he'll surely never be forgotten.

Crimin4L - December 8, 2019, 9:40 am

Was listening to him before he was even mainstream. Such a sad story, I feel like lean had something to do with it. Same as Fredo Santana, I feel like lean had something to do with both their deaths.

RIP <3

cryp - December 8, 2019, 9:43 am

Damn... Juice WRLD was an actual good artist in my eyes, death is a terrible thing to happen to anyone, especially this early but this genuinely effects me. Rest in peace Jarad.

MeIT3d - December 8, 2019, 9:50 am

Thia fucks me up bad... I wanted to see him live so bad.

Definitely, in the last decade or so a lot of opioid drugs have been popularized in rap but unlike weed it's something that you can OD on

Liema - December 8, 2019, 10:08 am

I Never knew who he was before he died.
Drugs or something probab?

Who Soup - December 8, 2019, 10:20 am

Nyx - December 8, 2019, 10:20 am

He was one of the only new artists I was fond of in the game.

OffTheRecord - December 8, 2019, 10:23 am

He's more of a singer than a rapper, but he can do both.

He was the one who was in Halsey- Without Me:

This video explains his drug addiction pretty well. I hate the rap trend revolving around drugs so much.

He died from a seizure which was 99% certain from lean od, if I'm right you owe me the 30cents in your bank acct

shankfisherxd - December 8, 2019, 12:53 pm

Definitely a OD from lean. It's so sad because this could of been prevented. Hopefully his death will help drive a change in the hip hop/rap community to put down lean. That clay davis kills and isn't worth it.

The Illuminati killed him

AwakenGP - December 8, 2019, 6:29 pm

He turned 21 6 days ago and said he was going to celebrate his birthday for a week. I can imagine he was doing lots of drugs and partying and his body just couldnt take it
