Thread: [Gamble time! This time; My bet X 100 in return!](#)

Hello there!

Here I am again with a bragging thread about my gambling addiction hobby! Haha joking, anyway. I sold my 20M OSRS today for \$8 LTC to Almonds - great guy btw! I can't withdraw it to my bank, so I decided to gamble, once again.

I used spins for \$0.20 and I was almost done. Here's one of the screenshots I took!

I just came back from a free-spin game, meaning I had 3 icons in a row triggering the Free Spins.

Long story short;

- Sold my 20M for \$8 LTC
- Gambled with 0.17 LTC
- Won a total amount of 0.7 LTC (not on this picture)
- Going to buy myself an award from the profit, like I bought L33T from my first Gambling profit ?

So what now?

- Withdraw is Pending of 0.7 LTC
- Will buy myself the Spades of Ace award and the rest goes to Almonds

I promised Almonds to send him the rest of my funds, if I got anything over the minimum payout requirement of 0.66 LTC.

He wished me good luck and thanks to his luck, I got 0.7 LTC!

Nice. I used to gamble heavy on slots. One of my best wins was probably £700 from a £1 spin in a free spins round. I probably have hella pics/vids from some of my wins.

Thanks! That's amazing! I used to take pictures of my profit too, but I decided to not do that anymore.

Only for HF now.
