Thread: [cunts - skipping teacher unlocking](#)

trash rat - December 8, 2019, 11:43 pm

is there a way to bypass needing a teachers account to unlock the tests? essentially being able to take the test whenever or wherever you wanted.

simply no it's more easy to get the teacher account than trying to bypass it

but just to let you know how it's possible ... you should hack into teachers/administrator system to give your self this privilege

something like brute force , or exploiting the vulenbrity of admin login panel can work..
you can find the software running on back-end on that server and search for their exploit from exploit-db.
you can't find everything on exploit-db and most of it's exploits are patched but the best option he have is to SE teachers or Crack teachers accounts
