Thread: [\[UPGRADE to l33t/ub3r\] 10 bytes buy-in \[ENDED\]](#)

Rally the Bulls - December 9, 2019, 12:45 am

Upgrading one random member to l33t for 6 months or ub3r for 1 year. The contest will end December 31st, as we roll into the new year. Please allow up to 48 hours after contest end to receive your prize.

To enter, donate 10 bytes my way, and post below. Upgraded members, leave positive rep, as well.

Multiple entries not allowed, and I'll random.org roll to determine a winner. Your post count is your number, only your first post counts. If I roll a duplicate post, or a member who hasn't entered but has replies, I will re-roll. I'll be checking to verify upgraded users have repped, and that the rep is updated post upgrade as well.

Best of luck to everyone, and Merry Christmas!

Edit: Since I have a few friends that have joined this contest, I've asked an impartial third party to do the drawing for me. [Sir](#) has been kind enough to agree to this.

Edit2: [Sir](#) has been messaged to determine a winner. Will update upon response.

Edit3: Congratulations [exploit.al](#)

Ha, your buy-in would've been presumed given your recent donations my way. If random.org seems you winner, I'll likely throw in a bit extra given the circumstances. :)

Thats fine, but coordinate with them first. Sooap has already entered, and I'll refund ya this time, but could get exhausting in the future, let them know first -- or repay them the 10 bytes if they already entered. :)

Hold off for the month, ya never know! I figure if I can get a decent amount of buy ins at 10 bytes, it'll knock a few dollars off the price tag for me since I intend to buy bytes soon, anyhow. :)

My BTC wallet is ready to purchase the upgrade. If the winner does not respond within 24 hours (Sir or I will tag you in this thread) then another winner will be chosen. Good luck and happy new years!
