Thread: [Professional Content Writer \[\\$20+\]](#)

the lights - December 10, 2019, 4:44 pm

Basically my content writing is trash and im terrible with grammar and punctuation. I have a template of what I need summarized and I have answered all the key point questions from the template. I just need someone who can professionally summarize and put the writing into the template format.

2-4 short paragraphs at max Im thinking so not much work for someone who is skilled in this.

Paying \$20+ we can negotiate. Please let me know your skill level and any previous work you may have displaying your experience. Thanks!

Here is the format in which I need my text to be put into:
