Thread: [Cheapest anonymous GSM sim cards](#)

bitenergi - December 11, 2019, 6:09 am

Hi everyone !

Selling cheap anonymous Vodafone European Union GSM sim cards with active Roaming. All come activated and removed from original envelope with phone number written on the sim bed using a sharpie.

The expiration is 300 days since they were activated. It can be used for making social media accounts and any other websites.

If you add credit to it then it can also receive calls. Adding credit will extend the expiration to 300 days again.

I can send to most countries but you need to make sure you can handle customs office in the post office or your chosen courier, I am not responsible in any way with handling customs in your country.

Prices are as follows:

50 - 500 pieces \$0.65 each

501 - 1000 pieces \$0.55 each

1001 - 5000 pieces \$0.5 each

>5000 pieces \$0.47 each

I have already fulfilled several orders and people are satisfied.

Shipping will be discussed separately but for some nearby countries the shipping is included for sim cards.

Payment accepted in BTC or ETH.

I am sorry but as you might know, Germany and Italy have mandatory sim card registration laws, that means no anonymity. I sell to people in such countries usually as they need these to create FB/Twitter accounts.

I'm Stanley HF's helper bot. This OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.

Thanks,
Stanley
