Thread: [Shelled Cheat site makes \\$2.5k a week](#)

Captain3000 - December 11, 2019, 10:16 am

Selling the shell to a cheat site (has cpanel access now)
makes around 2.5k a week
(stripe and BTC Paypal, ETH)
I got my fair share
maybe yall can have fun with it now
?

Bin: \$5,000 BTC
Co: \$0

Maybe provide a bit more information on the site and other important things, such as userbase, payouts etc

just a bin, welcome to cry about it but may or may not sell that much :)
this site has huge potential and can easily make back what you pay for,
granted I am not experienced in that type of work so I am selling this.

What kind of retard would spend 5k on a website just so he can "make the money back" or make marginal profit.
