Looks interesting, can the chat script be modified? Also what's the average amount of adds you manage to gain (kik/snap) per hour with it?

The amount of adds you get depends on your sales pitch. And yes, you can change the chat script.

Dude its a year ago and I've spoke to you loads since then about the bot

Let me start of this sentence by letting you know that you are reported for ban-evading, I did research and it seems your first account is [Dunny](#) <

1.

I. This is the message I sent the user [Dunny](#) ([Dunny \(He seems to be banned for trolling on HF\)](#)) on 16 December, 2019 11:28 AM

II. This is the message he replied on 16 December, 2019 11:57 AM:

III. This is the screenshot you provide of our chat, ~ 20-30 minutes into the conversation on 16 December, 2019, a little after we talked on HF:

IV. You just proved you are Dunny on HF, and are multiaccounting to ban-evade. (We have contract with Dunny on HF too, so mods can check that)

2.

I. Your Discord message from the screenshot you provided means you either have internet/connection problems, or you have issues with your Discord account

II. As I have showed on my screenshots = I have no users blocked and anyone can DM me! (Even without being in my friends list)

III. Don't try to 'shame' my service with false statements.

IV. I told you to DM me on Discord with proof of purchase, 1 picture would have sufficed via DISCORD (since from what I was given, you didn't seem to have purchased from HF, but you actually ended up being a multi), or just DM'ing me with the discord account you bought with. If you can't send me a simple message on Discord with proof, and are ban-evading, and also trying to shame my service, what is there left for me to help you with? I now strongly believe that it gives you satisfaction to troll & post meaningless replies.

Simplicity! - November 19, 2020, 10:44 am

Sharing your programs license key is also against ToS (if you've read our sales thread). Even sending a friend request would've sufficed, if you somehow really couldn't send me a message on Discord.

Well I've messaged you on here with no reply so I had to show my screen shot on here to show I actually purchased it?

In regards to adding you on discord your on my list or how can I see you

Stanley - January 7, 2022, 7:21 am

I'm Stanley HF's helper bot. This OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.
