Thread: [SQLi not pulling google urls](#)

cracker69 - December 13, 2019, 9:57 am

It had been months since i use sqli dumper. But now when i use i get no google url links. only bing. I have used several vpn to no avail. Using sqli 8.3. Any suggestions will be much appreciated. thankyou

(May 31, 2020 01:32 AM)James! Wrote: [\[CITE\]](#) Google probably changed something. And don't say you're "Using sqli 8.3". You're using SQLi Dumper 8.3. SQLi refers to SQL injection. SQLi Dumper refers to the program SQLi Dumper.

Exactly. And you will get better results by finding them by yourself.
