Thread: [\[SAFEST\] Bustadice script \[LONGTERM PROFIT\]](#)

**vZen** - December 13, 2019, 11:38 am

Hello everyone, I'm here to bring a refreshment to the bustadice scripting marketplace.

The script I'm selling is the product of partnership between me and -Rnn- which I'm sure you know of if you've been active on the provably fair betting scene.

I'll update the thread with a better design once Omni (hopefully) unbans me from the market place. Until then I'll just leave it here to see if we get the desired interest.

The price of the script will be fixed 100\$ BTC

The recommended bankroll for the script is 10.000 BITS.

We will be giving out 2 vouch copies to highly trusted members willing to test their luck and our script, while earning some profits in return.

## DISCLAIMER:

There are no guaranteed winnings in gambling.

Do not gamble with money you can't afford to lose.

Bad luck can crash the best of scripts, so don't think about our offer as your means of salvation from debt/bad financial situation. ?

Hey man,

I have huge experience with bustabit (you can pm me) and I am willing to put the recommended money on to try it out. Please let me know if you are willing to give me one of the vouch copies and we'll discuss further.

Good luck with your sales.
