Thread: [2743782 - MANY DISCORD IMPERSONATORS](#)

spiral - December 15, 2019, 5:05 am

I have noticed a few impostors of me on Discord, I imagine they will add you and ask to do deals or whatever, I will never message you on discord asking to do currency exchanges or whatever, I will 90% of the time make a post on site, and if I do it will be with people I know and have made past exchanges with, if you get added by "epic#0001" it may be me, my profile picture always changes and NEVER is the same as my on site avatar, always message me on site to confirm, I will also always use contracts.

DO NOT DEAL WITH ANYONE CLAIMING TO BE ME, ALWAYS CONFIRM ON SITE.

FAKE DISCORD - epic#0001

PS if you get scammed by an impostor after this warning, you are retarded.

Hello.

I can confirm this, he just tried to buy Bangbros from me on discord and never accepted contract I made.

I will cancel the contract now @spiral !

Thank you for making this thread and making us aware :)

Sheesh. It's crazy to think what extent people will go to impersonate someone else.

I'm Stanley HF's helper bot. This OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.

Thanks,
Stanley

Not to sound like a cockbag, but Omni did make a post about this, which is also stickied.

I know? Should I not also be able to warn anyone trying to get in contact with me? Or someone getting in contact pretending to be me?

No, no, no. This is great, but I see some burried advice from omni "dont deal on discord". If you take a look at your imposter, its almost too easy for them to impersonate you. ? Its best to keep

things on site, hell I use convo, and never do off-site dealing. But then again you do a lot more business than I do. ? I'd say its best to choose an apparatus thats hard to fake, and I'd interpenetrate thats that advice he was trying to convey.

On all my sales threads I uploaded how my discord will look, so I doubt he will be able to impersonate me as easy. Only reason I deal on discord is because I can easily send files over DMs when im travelling and only have my phone. As well as Convos sometimes don't load on my phone which is an issue. When notifications for iOS come out I most likely won't need to be as reliant on discord anymore.
