Thread: [French or Dutch/German/Swiss/Belgium but english speaking, possible ?](#)

GEKSINO - December 15, 2019, 5:16 am

Hello, so I am looking for any source (even saturated) of either French traffic or any of these : Dutch/German/Swiss/Belgium that speaks english. Can be Instagram or Kik (not Snap and Twitter, easy to spot. No modded app for the first, many e-whores chasers for the other).

The reason I am looking for this traffic is that I got limited permanently on my main PayPal. I don't want to use this gay website anymore. So I want Paysafe Cards, but it is only available on the countries that I wrote above.

Thanks in advance for the help.

?
