New user here. Big fan of swiss email. Looking for mentors and friends via pm.me only (as well as HF but my privileges are limited!)

Starting a thread and declaring my own protonmail: scarpal5@protonmail.com

who wants to be cohorts?

Your first free lesson, never post your email anywhere, especially one that you intend to keep secure.

Now the entire world knows that encrypted e mail belongs to Lucas Scarpa.

Is the Devil ! DON'T trust Swiss Law you can make good research about Lrens. Actually in EU go with Iceland service because Switzerland is here to store your data and especially your IP. And this is legal in this country to say " Privacy, but we keep your ip if we want to" In Iceland nobody in the law can say "store ip" so anonymous is better than Shitty Swiss Law. Don't trust this country ! Even NSA make less slient spy job than this country...The Next Leaks is for Switzerland !
