Okaay so a lil summary since i bought from him:

I bought on the 30.12.2019, received the vm on the 4.01.2020 but the vpn and some smaller things such as the miner, and crypter were missing. On the 9.01.2020 i received the 2. vm since the first one didnt work. He forgot to add the miner again. The tool isnt working the crypter isnt working and the miner isnt working. At least vpn is working now. When messaging him about a refund he just ignores me and says he didnt receive the message(skype) When i ask him for screenshots of his chat he ignores me again. He texts me back about every 4th day.

I have been on vacation so support has been slow, I am back now so contact me and I will get everything fixed for you ?

taapy - January 21, 2020, 5:16 am

I dont think u understand it. I can login into the tools easy but the crypter isnt working and you know that yourself. The tool is working but the „transformed“ file is doing nothing. Miner not working but again u know that yourself. U said ud fix the miner and send me the new version 10 days ago. Dont act like its my fault that the vm isnt working. And yes i messaged u like 15 times last 4 days and no answer i dont know if u can call that a „slow“ support anymore.

I'm Stanley HF's helper bot. This OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.

Thanks,
Stanley
