Thread: [Instagram - What niche should I choose?](#)

Lorem Ipsum - December 17, 2019, 3:57 am

Hello there,

I'm about to make a new Instagram, I want to grow it big before monetising it or selling it. I doubt which of the niches I'd choose to start with. If you'd like to help me a hand by sharing your opinion, I'd appreciate it!

Niche 1: Clothing

Extreme, weird, unique, expensive, cheap, clothing.

Niche 2: Animals

Pets, wild, extinct, sea, land, sky, weird, unique.

Niche 3: Women

Beautiful, sexy, teasing, weird, memes, funny, lovely, Christmas

Niche 4: Motivational

Quotes, videos, tips, sales, growth, routines, examples

Niche 5: Food

Ideas, recipes, photos, videos, tastings, expensive, cheap

This been said. I have plenty of other ideas, but these are the 5 most common niches which I believe can grow really fast.

What about you, members of HF, what do you think? Any suggestion is welcome, but please keep it on-topic and high quality ?

Make one you're actually interested in making. Otherwise you'd get bored relatively quickly

I know, but I had several accounts before. All decided to quit before they were valuable. Anyway, I don't know what I want to post about. My account has a lot of variety posts, but I want to make 1 HQ account. I guess I'll go for either Motivation or Women, best to monetise afterwards I think. ?

I've had accounts that grew to 100k's of followers that I had to sell because I lost interest in them and I think I could have monetized them and made a lot more

That's sad. If you like to participate on making my Instagram bigger, feel free to start a conversation or add me at Discord (see profile). ?

Posting on regular times so your followers can develop a routine of expectations around a certain time, like4likes and certain tags and buying them of course.
