Thread: [Quick Love Post for 10 Bytes](#)

Xerotic - December 17, 2019, 2:52 pm

Every post on HF will now have a heart icon on the top right next to the share icon. Clicking this heart is a quick and convenient way of showing another HF member some love with 10 Bytes.

If you notice any issues with the new feature please press CTRL + F5 to clear your cache or reload this page: <https://hackforums.net/jscripsts/thread.js>

Feel free to post any thoughts, comments, or suggestions below.

Enjoy.

Grizzly - December 17, 2019, 2:54 pm

So this automatically donates 10 bytes to whoever you click on? someone quick, test this on me D

That's right. A quick and easy way to show some love.

Nuworld - December 17, 2019, 2:56 pm

Working great for me.

Great addition as always.

Keep up the great work.

N - December 17, 2019, 2:58 pm

Cool new feature. Thanks!

Astrogen - December 17, 2019, 3:01 pm

Nice feature! I'm gonna send my love for you in a sec!

I saw this, cool new feature!

SIM-403479 - December 17, 2019, 3:02 pm

Worked for me. I wonder how many accidental loves I'll give.

That's exactly where my thumb is when I scroll. It'd be nice if it was double tap or confirm to do it (especially on mobile).

This, for mobile users maybe add a confirmation?

Kill Joy - December 17, 2019, 3:07 pm

After clicking the heart and then refreshing the page it loses its fill. Can this be tweaked so it doesn't lose its fill do you remember you loved it already.

Only other suggestion would be is have a tiny number in or around it displaying how many times it was loved. Or ?x7 etc

SQL_ - December 17, 2019, 3:08 pm

First one that loves THIS post will have goodluck for 24 hours!

Ignore this to get 10 years of bad luck! ͇_(?)_͇

Katyuska - December 17, 2019, 3:09 pm

I noticed this a little bit ago and used it. Works fine and I love it. Makes it easy to show love to HQ threads and comments.

We implemented this with minimalism in mind but also considering future expansion such as having the number on the postbit or maybe even a Goal Award.

SIM-1729678 - December 17, 2019, 3:11 pm

I like it, nice addition.

Edit: does it send a PM to the member recieving it that they have gotten some love?

CHUzi - December 17, 2019, 3:13 pm

Awesome feature Xerotic. :Crazy:

Mix - December 17, 2019, 4:31 pm

I can see an award coming from this new feature.

"show some love"

Give 50 people some love on their thread.

Duck On Quack - December 17, 2019, 4:31 pm

Seems good, maybe options in UserCP to change the amount your love button is,
For poor boys like me 10 bits is a lot ;)

Crimin4L - December 17, 2019, 5:37 pm

This is pretty dope! Could it maybe have a counter that shows how many times that specific post has been "loved"? If so that'd be fugging awesome!!

Maybe inside the heart you can put the number of times it was loved.

NERO - December 17, 2019, 5:45 pm

Rally the Bulls - December 17, 2019, 7:23 pm

I was wondering what that was. Cool new feature! I like that it promotes quality posting over quantity posting.

Sir - December 17, 2019, 7:39 pm

Didn't expect to see you back to work until after the holidays. Good job.

eXceptional - December 17, 2019, 7:50 pm

I think this is a good idea. What about being able to sort posts by how many times they were liked?

Nate - December 17, 2019, 8:21 pm

Is this sort of a like feature?

Natas - December 17, 2019, 9:04 pm

Fortunate - December 17, 2019, 10:01 pm

This is a very good feature that supports the community. Good to see small changes like these have a very positive impact in the future.

Soaaponarope - December 18, 2019, 12:28 am

This is a pretty cool feature. Might have to try it out on a few posts.

lunaticcc - December 18, 2019, 12:57 am

I don't believe this works. Anyone wanna test it on me?

LoremIpsum - December 18, 2019, 2:23 am

Thank you so much for this awesome update, Xerotic! It's a nice gesture to those who created a wonderful thread or something like that. A question, do you still get that 'someone sent you a gift' type of warning or won't you get any alert when someone clicks at the heart?

Mr Kewl - December 18, 2019, 2:23 am

Going to spread a lot of love in the coming days.

Seeing the amount of hearts would be a great addition to this.

Cool feature!

Game - December 18, 2019, 9:00 am

Great new feature.

It would be great if it had a confirmation or double tap for mobile users though.

Also, it would be cool if it had a counter to tell you how many times the post has been quick loved.

Great work as usual.

Thanks.

TheChaosKiller - December 18, 2019, 9:02 am

I had wondered what the new heart was about but didn't see this thread till just now. Nice addition and idea! Love these new features coming to the site so often. If I had enough bytes to lose, and I wasn't still chasing this damn Dicey award (19k+ spins and no award) then I'd be doing this all the time to people lol.

The Lover award. Could be just a heart award granted after quick loving so many posts.

Wafflemonger - December 18, 2019, 9:49 am

Something interesting to note is that ABP blocks the "Share" and "Heart" icons by default. I've added them to the "allowed" portion, but just something you may want to investigate :).

Well observed. We have corrected this issue. This required some CSS alterations so you will need to clear cache by CTRL + F5 and reloading this file:

Thank you.

MavenGradle - December 18, 2019, 10:21 am

You might want to add a confirmation dialog. It's not obvious for mobile users what they're about to do. Other than that, seems like a nice addition.

Please no. It was a \$1000 award. A different one would be good. I like the idea of the award goal though.

Should be the other way around in that case. Receiving a given number of quick loves should grant someone the award.

I actually got the "Green Gift" award from that post, surprising I got it with how little I post haha. On-topic though, I didn't even know that there was a "Share" icon until you mentioned it in this thread. Are there any other icons / features in threads that may be being blocked by ABP?

Cooligan - December 23, 2019, 1:23 pm

I LOVE this new feature, it's such a cool aspect to gifting Bytes.

Using Quick Love basically shows whoever you're sending it to that you not only agree with what they posted but also like it and/or enjoyed it.

Much more personal than just sending the Bytes manually, I really like it.

The term "Quick Love" also fits very well with HF's theme along with it's nice purple-pinkish color. ?
Great job as always guys.
