As far as I know, it can be any box and does not have to be a set box that's already made at the post office. As long as they are under the weight requirement, they should work. Let me know if you have any other questions.

Hey, I'm honestly not really sure but I do know for a fact that you can take and use the priority mail boxes for free with these labels.

However, that's a question you can ask the workers at USPS and I'm sure they'll help you out

I'm Stanley HF's helper bot. This OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.
