Thread: [I need ways for traffic in snapchat](#)

Franc000 - December 17, 2019, 6:46 pm

Can anyone help me on how to get a good traffic on snap

There is so much useful information on the site that you should not be needing to ask for someone to spoon feed you traffic sites.

When I started as a 13 year old teen within a few searches I had found all I needed. 2 years later and still doing the same public methods and making \$\$\$

Exactly this, if you expect to be spoon feed you will need to pay for it.

None of the traffic sites that are public work since they are saturated. That's kind of the point of him asking. ?

Very hard to find traffic sites which are not saturated I have spent 3 weeks looking

I get the odd customer but still cannot find a good site

I have paid for packs from this website which trust me are useless the 3 I have purchased as it's all in the public domain

Non of these packs have any unsaturated sites with good customers

That is not true at all....there are some threads on here that have the websites/apps that I use daily.
