Thread: [MAKE \\$1000 A MONTH WITH THIS SIMPLE MONEY MAKING STRATEGY - MOSTLY AUTOMATE!](#)

Yoseph7 - December 18, 2019, 1:10 pm

Pm me for Proof (Edit posting proof here instead)

This is for serious people who want to make money online. I'm going to explain exactly what to do in this post. You can pm for extra info or help. If tons of people start asking I may just make a discord for this.

Right now, I only have 25 spots and licenses available for our software, so first come first served.

So really the goal is to install this software for business owners one time and automate while you collect monthly payments from them ranging from \$147-\$500/mth.

What we are going to be doing is installing and setting up text message marketing services for businesses. That's it.

This is the simple strategy

1. Pick a niche
2. Offer a trial or if you have sales skills you can convince them to pay upfront to set it up.
3. Close them, setup the text message software for them and the autoresponder.
4. Let the software do it's job
5. Sit back and make money on autopilot every month or go out and get more clients!

THAT'S IT! I don't do this anymore but I do know for a fact it's way less saturated than the SMMA world. Everyone is offering to do Facebook ads etc.

This makes you different because you're offering a text message marketing service for less the price and once it's set up it's DONE! Period.

Also you're not asking for \$2,000-\$5,000/mth to do their Facebook ads.

You just set up the system. Create a little card or offer template, put it in their restaurant or any business you want to work with. Tell them that if the customer texts the number you got for them they will get 15% off their next purchase and that's it.

The client gets a list of paying customers who they can market to via text message whenever they want meanwhile they pay you for your services.

It's pretty simple.

So here's some great niches to go after.

Restaurants (the easiest)
Dentists
Chiropractors
Gyms
Crossfit Gyms
Foot Doctors
& more

Now the entire time, you're probably asking "Cool but what software do I use and how do I set this up" or "How do I get in touch with these clients."

Preferably, the best way is to walk into the business you want to work with, start up a conversation with the owner and offer a 2 week trial or if you have sales skills, ask for a meeting and then close them there.

But if you do not want to do that, I will provide scripts I've used to get in touch with clients via email, cold calls, facebook messenger, etc. Pm for that info.

Now here's the software we are going to be using that I have 25 licenses too, that I will be giving you a discount on.

The first one is a prospecting software - This is a software that is going to allow you to automatically gather all data about local businesses in your niche. For example, if you type gyms in Dallas Texas. It's going to pull up all the gyms and also their name, email, phone number, facebook profiles etc. It also allows you to automate your cold emailing to these businesses if you do not want to walk in and approach them. There's training on the inside on how to use the software as well.

The second software is the software we are going to be using for our clients. It is the text message marketing software we're going to setup for them to get customers on their sms list. BUT we can also use it for ourselves to get clients as well. It allows you to do sms marketing, cold email, and do phone calls all inside of one single dashboard.

Bonus - As a bonus, I'm going to give you another software that you can use so you can take payments. It's simple to setup. Just connect your stripe account and setup your fees and you're done.

Usually all these software would cost \$171/mth on the minimum plan and on the highest plan would cost over \$1500/mth

Instead of charging you guys that I'm going to give you all 3 software for only \$75 one time.

No monthly fees
No bullshit.

So you get the software \$75 + the scripts you can use to start closing clients.

Also if you want more help, I'll definitely create a discord so people can get more help etc.

If you're interested in this pm me

If not no harm no foul.

I only have space for \$25 people! There's only 25 licences I can give out, so first come first served!
