Thread: [I laptop won't turn on or charge](#)

Senpai™ - December 19, 2019, 9:13 am

Any solution? Really need back on

Income. - December 19, 2019, 11:03 am

Could be anything. How old is the PC? Battery condition? etc etc. Is it the original charging cable that came with the laptop? If not is it the same voltage as original or can you choose voltage?

Update us. :)

There are way too many variables. What were you doing when it happened? Water damage?

Battery died and no won't charge or reset

Bastille - December 19, 2019, 12:21 pm

Hello,

Did you tried to unplug the charger, to remove the battery if it's removable, push the power button for like 20 seconds, put in the battery, plug your computer, turn on your computer ?

Senpai™ - December 19, 2019, 12:36 pm

Not sure if the battery comes out it's a tablet ill check
